取消关注	unfollow

Discussion

Which group chat do you check most often — family, friends, or work? What shows up there?

How often do you post on Moments, and what makes you decide to share it or not?

Some people set their Moments to "show only three days". What do you think of that choice?

How would you explain WeChat Pay to a foreign friend who has never used it?

What do you do when someone sends you a long voice message?

If you could change one thing about WeChat, what would it be and why?
