

Business Discussion Questions

Work & Money

What matters most in a job — money, enjoying your work, or what else?

How do we find a good job? Apps, referrals, job fairs, or any other way?

What helps people get a good job — a degree, real skills, work experience, or anything else?

Work Style & Work-Life Balance

What company do you want to work for — a big one, a small one, or another kind?

What makes a meeting useful — a clear goal, a short time, the right people, or any other ideas?

How can people balance work and family — flexible hours, family help, or what else?

What is the best way to show you work hard — long hours, good ideas, or what else?

Technology & the Future of Work

How should companies sell — on WeChat, on live-streaming, in shops, or somewhere else?

What will work look like — home offices, big offices, or something completely different?

How do you deal with work messages after work — reply right away, wait, or ignore them?

How will AI change work — help us, take our jobs, or both?

Company Size & Organization

What helps a company react fast — small teams, good leaders, or what else?

How do people get a promotion — hard work, good relationships, or any other way?

Sales & Customers

Who is a salesperson — the sales team, customer service, delivery riders, or everyone?

What do good salespeople need — product knowledge, a friendly manner, or any other skills?

Business Ethics & Fairness

What should customers do about cheating companies — complain, stop buying, or post online?

When is it OK for a company to pay less tax — never, in hard times, or any other time?

How is work different for men and women — pay, promotions, job types, or anything else?
