Start-Up Apps

Your Top Apps

1. List your five most-used apps. What category is each one in?
2. Which app do you open first in the morning, and why?
3. Which app do you use the longest every day? How long?
4. Which of your apps do you pay for, and is it worth the money?
5. Which app has been on your phone the longest?
6. Did you delete any apps recently? Why?
7. Which app would you struggle to live without?

What Annoys You

1. What annoys you most when you use each of your top apps?
2. What is the biggest flaw in the app you use most?
3. Have you ever left a bad review? What made you do it?
4. Which app has the worst ads, and how do they affect you?
5. Which app keeps asking for permissions it doesn't really need?
6. What app crashes or lags at the worst possible moment?

Features

1. Which feature in your top app is completely unnecessary?
2. What feature would you add to make the app better?
3. What feature do you want improved, and how?
4. Which app copies a feature from another app badly?
5. What is one feature that made you switch to a new app?
6. Is there a feature you never use but cannot turn off?
7. What small change would save you time every single day?

Designing an App

1. If you designed one app, would it be messaging, shopping, delivery, maps, travel, or social?
2. What problem would your app solve, and who would use it?
3. What is the hardest part to build — the idea, the money, or finding users?
4. Would you build it alone or with a partner? Why?
5. How would you test it before you launch?
6. What would make users pick your app over the market leader?
7. If a big company copied your idea, what would you do?

Money and Users

1. How would your app make money — charging users or selling ads?
2. Would you rather have many free users or a few paying ones?
3. How much would you spend on ads to attract your first users?
4. What makes you trust an app enough to pay for it?
5. Have you ever paid for a subscription and forgotten to cancel it?
6. Is it fair for apps to sell your data? Why or why not?

Apps and Life

1. Which app has changed the way you live the most?
2. How much time do you spend on your phone each day? Does it worry you?
3. Do you check your phone during meals or before sleep? What stops you?
4. Which app is the most useful for your work, and how do you use it?
5. Do delivery and shopping apps save you time or just spend your money?
6. What would a day without your phone look like?
