Technology

Everyday Tech

1. Are you excited by new technology? What kind of tech interests you most?
2. How much time do you spend online each week? Is that too much, or fine?
3. Which app do you open first in the morning, and what do you check?
4. What is your favorite app or website, and what do you use it for?
5. Do you read e-books? How do they compare with paper books for you?
6. Which electronics brands do you trust? Are you loyal to one brand?
7. What would you miss most if you lost your phone for a whole day?

Phones and Screens

1. How do you feel when you leave your phone at home by mistake?
2. How many times a day do you check your phone? Is that a habit you like?
3. Do you sleep with your phone next to your bed? What do you do first?
4. Do you use your phone during meals or while watching TV with family?
5. Which app takes up most of your screen time? What could you cut back on?
6. Have you ever tried a digital detox? How did the first day feel?
7. Do you answer work messages late at night? Should you have to?

New Gadgets and Upgrades

1. When you buy a new device, do you read the manual, or just figure it out?
2. Are you an early adopter? What are the risks of buying the newest product?
3. Is there a tech product you want right now? How would it improve your life?
4. How long do you keep a phone before you replace it, and why?
5. Do you buy the latest model, or wait until the price drops?
6. Have you ever bought a gadget you barely used? What was it?
7. Do you play computer games? What do you say to people who call them a waste of time?

Technology and Society

1. Is technology developing faster than before? Are you worried about being left behind?
2. Medical tech helps people live longer. What are the downsides of that?
3. How old do you hope to live? What would make a long life good or hard?
4. Which social apps do you use most? What do you like and dislike about them?
5. Do you know anyone who fears or dislikes technology? What is their reason?
6. Some people choose to live with less technology. Can you understand why?
7. Are cash and cards disappearing? How do you pay for things now?

Work and Study

1. Has technology made your work easier or more stressful? Give an example.
2. Do you use AI tools at work or for study? What do you use them for?
3. Could your job be done by AI one day? How do you feel about that?
4. Do you study better online or in a classroom? What makes the difference?
5. Would you take a fully remote job? What would be hard about it?
6. How do you stop getting distracted when you work on a laptop?
7. If you could delete one app from your work life, which would it be?

The Future

1. What do you think is the most important invention of all time, and why?
2. What future tech are you looking forward to — flying cars, personal robots?
3. How do you feel about dating apps? Would you ever use one?
4. Would you ride in a driverless car? What worries you about it?
5. Many science fiction films show a dark future. Are you optimistic or pessimistic?
6. Would you want a smart home that listens to you? What would it switch on?
7. In ten years, how do you think your daily routine will have changed?
